

## IMPORTANT INFORMATION

- 1 Thoroughly wash all hookah parts with warm water prior to use!
- 2 Hookah flask is made of glass thus require handling with care:
  - do not put ice in empty flask;
  - firstly, fill the 1/3 of flask volume with water of room temperature;
  - avoid flask contact with hot water;
  - avoid blows and heavy stresses on the flask.
- 3 If the hookah is equipped with the illumination module, the module shall be removed prior to water infill or discharge as well as prior to washing. Ingress of moisture into illumination components may damage the module.

## HOOKAH PREPARATION 1/2

- 1 Fill the cup with hookah tobacco according to the diagram. It is recommended to use the "wettest" tobacco to get thick smoke and prolong smoking;
- 2 Cover the cup with a foil, make 1,0 - 1,5 mm holes in it according to the diagram. After that make sure to stretch the foil and tightly press it down all around cup edges;
 

*Small hole number and diameter or loose foil considerably impair the draught;*
- 3 Place the cup on live coals according to the diagram.

## HOOKAH PREPARATION 2/2

- 1 Fill the flask with fluid so that the shaft outlets are immersed to a depth of 1.0 - 1.5 cm (see Fig. 1);
- 2 Assemble the hookah (see Fig. 2).

## HOOKAH CARE

- 1 After usage for several times, it is recommended to wash out all hookah parts with warm water, for this purpose it is necessary to unscrew the shaft end piece and clean out to remove all contaminating impurity;
- 2 The flask shall be washed with warm water, dishwashing detergent and flexible brush.

## SAFETY MEASURES

- 1 **WARNING:** Smoking Causes Lung Cancer, Heart Disease, Emphysema, And May Complicate Pregnancy. Smoking seriously harms you and others around you. Smokers die younger. Buffer children against tobacco smoke.
- 2 Hookah is a source of special fire risk. Be careful with live coals!
